

Summer Camp

UDIS Summer Camp will offer indoor and outdoor activities, plus opportunities for fun, friendships and exploration.

Our experienced teachers have developed a fun curriculum that takes advantage of all that summer has to offer. Children will use the playground, the surrounding communities, and have weekly field trips as an extension of the camp. Helping children to discover science, explore nature, and engage in the creative arts, while learning about the vast opportunities in the world around them.

We follow four essential rules when planning our field trips:

- the trip must be developmentally appropriate
- safe
- have educational value
- must be fun
