

## Message from the Head of School

This week we celebrated our PYPx with our Year 6 class. The PYP Exhibition is more than just a presentation—it's a celebration of inquiry, exploration, and the creativity of our Year 6 students. Over the past terms, they have poured their passion, curiosity, and dedication into investigating topics that matter to them and to the world. Through collaboration, research, and reflection, our Year 6 class has grown not only in knowledge but also in confidence, critical thinking, and their ability to make a difference.

We are also welcoming Kiettisask International School for the return leg of our sporting competition. UDIS teams in badminton, football and basketball competed for school glory!

Thanks to everyone who has helped support this.

This week we also conducted our annual, external tests for Year 2 to Year 11. These provide us wonderful data on student progress and our programmes. We will be sharing more information with parents about these reports across the remainder of the term with parent reports going home with end of year reports, students who achieved very highly being celebrated and summative data as part of our community report for this year.

We are also holding our annual school photo days next week. These will also be used for our special end of year newsletter as we reflect on the success of 2024/2025!

## K2: Using water and mud

Our K2 class had a wonderful time playing outside this week! We enjoyed using water and mud to make pretend "mud cookies" together. Outdoor play helps us learn through fun, creativity, and working with friends.

## Year 2: Developing their typing skills

Year 2 students have been developing their keyboarding skills by learning how to keep their fingers on the home row keys. They are building confidence and control as they practise correct finger placement and begin typing with greater accuracy.

## Year 4: Developing our maths and English skills

We are glad to be back at school and looking forward to a great term's work and more field trips. We have been practicing our Maths and English skills and knowledge, in preparation for our GL quizzes next week. We enjoyed the visit from Vietnamese student teachers this week.

## Year 6: Preparing for the PYPx

Year 6 is in the final stages of preparing for their upcoming exhibition. Their last workshop was with Ms. May, who helped them practice their public speaking skills. We are looking forward to showing the UDIS community how much we have learned over the past few months.

## Senior School: Exploring human body systems

During our science field trip to Bangkok Hospital, DP, Year 9 and Year 10 students engaged in hands-on learning—practicing CPR to understand the circulatory system, observing microscope work to study cells and the immune system, exploring a sterile lab environment to learn about infection control, and touring an ambulance to see how emergency care supports vital body functions.

## Introducing Ms. Pang our Mandarin and LS teacher

Hi! I'm Ms. Pang— DP Mandarin, Chinese ECAs, and Learning Support teacher. A few of my favorite things are watching dramas, going for drives, swimming, and enjoying tea and desserts. Have you heard the Chinese idiom “学无止境”? If you're curious to know more, come learn with me!

## English @ UDIS

Our Years 5 and 6 learners took time to reflect on their learning in EAL, demonstrating the IB Learner Profile attribute of being Reflective. They shared what they are most proud of, the activities they enjoyed, and what they found the most challenging. They also had the opportunity to think about what they want to get better at this term. Their reflections show their motivation to grow and become more confident in their English language skills.

## Summer school for June

**JUNE  
SUMMER  
SCHOOL**

**16 to 27 June 2025**  
**08:30 - 14:30**

**K1 - K2 with Ms. Phibz**  
**Year 1 - Year 4 with Ms. Liza**
